

René Andritsch, M.A.

Graphic and Motion Design

Summary

I am a Graphic and Motion Designer offering a broad range of disciplines with over 20 years of experience in the creative industries. I firmly believe that great visual communication should have a positive impact on a person's life. Staying open-minded and learning new skills to support my clients' needs is one of the core principles of my business. I also offer software seminars to designers and companies working with Adobe Creative Cloud applications (InDesign, Illustrator, Photoshop and After Effects). Sustainability, environmental and social awareness inform decisions on all my projects.
